

MOBILE ECO “Entry Level” PALLET TRUCK

MODEL: ELP55

When price is the principal concern, the ECO ELP55 Pallet Truck is the answer. This model features dependability at a fraction of the cost of premium pallet trucks.

Durable, versatile and easy to use the ELP55 features an ergonomic design that reduces operator fatigue and downtime.

The 180 degree handle pivot provides exceptional maneuverability in compact areas and comes with standard polyurethane wheels and rollers for rolling ease.

The ELP55 features a powder coat finish, robotic welds throughout, and grease fittings at all pivot points for easy maintenance.

FEATURES:

Frame: Rugged heavy duty frame constructed of one-piece formed Channel steel offering light weight strength. Reinforced gussets and bulkhead.

Forks: Reinforced for added strength with tapered ends for easy pallet entry.

Paint: The ELP55 boasts a quality Powder Coat finish.

Hydraulic Pump: Quality pump design complete with a special lowering valve allowing controlled rate of descent, and an overload by-pass valve.

Pump Stroke: Features a full 90 degree top to bottom stroke - requires 10 strokes to raise the forks to the maximum lift.

Handle: Features a bolt-on, ergonomically designed spring-a-matic handle that returns to the upright position automatically.

Control Handle: The control handle has three position (raise/neutral/lower) fingertip control.

Steering: Featuring 180 degree pivot action for greater maneuverability with 7" polyurethane Wheels, sealed bearings and “Ball-Thrust” steering. Articulating axle allows for level transport of loads on uneven floors.

Load Rollers: Features 2.9" polyurethane rollers with sealed bearings.

Push Rods: The adjustable push rods allow for individual adjustment capability of either fork height.

Hangers: The one piece hangers are constructed of Iron Cast for greater strength and longevity.

Helper Rollers: Features entry and exit ramp for easy handling of pallets.

Pivot Points: The ELP55 features grease fittings and bushings at all pivot points for easy maintenance.

Options: Tandem Wheels
Automotive Brake Attachment

SPECIFICATIONS:

Load Capacity:	5,500 lbs.
Fork Length:	48"
Overall Fork Widths:	20.5" or 27"
Lowered Fork Height:	2.9"
Raised Fork Height:	7.5"
Fork Width:	6.5"
Weight:	180 lbs.
Steer Wheels:	7"
Load Rollers:	2.9" X 3.6"
Wheels/Rollers:	Polyurethane
